

NAME: _____ DATE: _____ HOUR: _____

CELLULAR RESPIRATION GRAPHIC ORGANIZER

In the spaces provided label the cell membrane, cytoplasm, mitochondria, mitochondrial matrix, and inner mitochondrial membrane. Label where glycolysis, lactic acid fermentation, alcohol fermentation, Krebs cycle, and electron transport chain take place. Label the aerobic pathway and the anaerobic pathway. Include all major reactants and products (refer to your notes).

Compare and contrast aerobic and anaerobic cellular respiration by completing the Venn diagram below.
